

FERNDALE SCHOOL DISTRICT NO. 502
BOARD POLICY

No. 1721

INFORMATION AND COMMUNICATIONS

It is the policy of the board to encourage each member, new and old, to keep abreast of educational developments and to maintain an objective viewpoint on the changes which are constantly taking place in student and staff relationships and instructional processes.

School directors will receive copies of professional publications including the American School Board Journal, Signal, Tips & Trends, Compass, and other publications devoted to school board operations. A packet of informational materials will be given to each new director by the Washington State School Directors' Association.

School directors receive many invitations to meet with school community groups. These meetings offer a personal contact valuable to the board members and should be attended whenever circumstances permit.
