ANNUAL SCHOOL PERFORMANCE REPORT

November 2004

A message from our school...

Mountain View is a community school that strives for excellence in meeting the needs of our diverse student population. We identified math and technology as a tool to support instruction as the areas for improvement this past year. Staff training in best practices and assessment was related primarily to the area of math. Additional training was provided for technology use within the classroom and computer lab. For specifics, please refer to the Accomplishments section of this report. Due to the advanced training received and the diligence of staff, we have made great strides in our math improvement as well as the use of technology to support instruction and will continue to aim for higher goals.

By helping students become better problem solvers, we will improve their chance for future success. A strong parent and community partnership serves as a vital link in reaching this goal. Thank you for your continued support regarding these efforts.

MISSION AND VISION STATEMENTS

The Mountain View learning environment is cooperatively supported by teachers, students, staff and parents, and encourages individuals as they strive to reach their highest potential in both academics and citizenship. The staff has high standards and expects students to attain their maximum potential, recognizing and respecting cultural, physical and academic uniqueness. Achievement is fostered by focusing on individual skills and abilities.

Mountain View's cooperative environment encourages growth in decision making, creative thinking and adaptability. This exemplary learning environment provides skills which enable students to become confident, productive, caring citizens with a sense of responsibility toward learning as an ongoing, lifelong pursuit.

It is the vision of the Mountain View community to continue to be a nurturing environment that facilitates lifelong learning, as reflected in our mission statement and in our motto, *Always Reaching New Heights*.

COMMUNITY SUPPORT

Ferndale School District students and staff are strongly supported by the Ferndale Community. Community members and businesses provide volunteer time and monetary contributions to support a variety of Ferndale’s educational programs. This last year, schools received a total of over 146,000 hours of volunteer time. Alcoa Intalco Works was honored as Business of the Year for 2003-04.

In addition, our community consistently approves levy and bond issues which provide the district with needed financial resources to support the many programs offered to students, as well as to give students well-maintained facilities in which to learn.

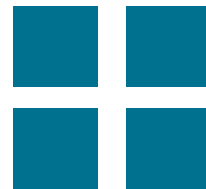

Thank you to our community members for your support!

FERNDALE SCHOOL DISTRICT MISSION STATEMENT

Ferndale School District, in partnership with families and the larger community, will educate each student to develop the knowledge, skills and character necessary to lead a self-reliant, socially responsible life.
