### Mission and Vision

To improve student learning and ensure a positive school environment, we will make a commitment to collaborate, to communicate, to use best practices, and to be flexible in meeting students' needs.

It is our vision to have each student leave Eagleridge Elementary School with a strong foundation of academic skills, self-disciplined behavior, a positive attitude toward learning and others, self-confidence, a strong work ethic, meaningful goals, well developed thinking skills, acceptance of diversity, a cooperative team spirit and demonstrated citizenship skills.

### A message from our school

Eagleridge Elementary School is proud to share its 11th annual report with the community. We have made great strides in creating an environment for learning with the focus on the nine characteristics the state has identified as common in all high performing schools. Eagleridge provides a high quality education for our students, a warm inviting environment for our parents and a strong professional learning community for our staff.

Our primary initiatives this year involve meeting all students' needs in mathematics, reading and writing through a variety of approaches and services. In order to do this, our staff devotes weekly time to collaborate professionally, refine and implement a fluid, comprehensive learning continua, and use formative assessment to regularly gauge student progress.

The results from last spring's Washington Assessment of Student Learning (WASL), demonstrated strong growth in all areas. Particularly rewarding is the tremendous growth in writing, which has been the primary focus of our collaborative time.

We will continue with the school improvement planning and technical assistance project known as SIPTAP, which is supported by the educational service district. This program involves staff training, parent input and whole community contributions. Its strength is in using research and current data to make informed decisions, set goals and respond to needs. This year we will continue the implementation of our action plans, currently in place, with our building goals in clear focus.

### Community Support

Ferndale community members and businesses are commended for their strong support district staff and students. Many volunteer hours and monetary contributions are provided to the district in support of a variety of educational programs.

Thank you to our community members for your support!
